The Gold Facial, based on Ayurveda, is a powerful anti-ageing treatment, with revitalizing and rejuvenating effects. Gold is one of the softest metals and is easily absorbed by the skin. It helps lymphatic drainage and facilitates the removal of toxins and wastes. It also stimulates blood circulation and improves skin elasticity, accelerating cell renewal and reversing oxidation damage.

Kairali's Pearl Facial

Based on Ayurveda, the Pearl Facial uses products which contain powder of pearls. Research has revealed that pearls influence the transfer of melanin (natural pigment) to the skin surface, filtering the sun's rays and counteracting sun damage. Pearls also contain powerful nutritive elements, like amino acids, minerals and proteins, which strengthen the skin and improve its moisture retention ability. The facial gives way to a healthy radiant skin, with an even colour tone.

Kairali's Thermoherb Facial Mask

The Thermoherb Mask is a mini face-lift, which deep cleanses, restores balances and tightens the skin. Based on an ancient thermal mask, it has been improved with herbal extracts. The mask hardens, generates heat and creates the ideal temperature between itself and the skin, at which skin absorption is highly efficient. As it hardens, it tightens the pores, sculpting the facial contours, minimizing wrinkles and improving skin elasticity. The Thermoherb mask itself contains extracts of rose, basil and mint.
